**MANAGEMENT DISCUSSION AND ANALYSIS****a. Industry Structure and Developments:**

Your Company's Bakery portfolio includes biscuit, bread, cake and rusk. Bread and Biscuits are the largest of these categories, and has attracted a vast array of competitors ranging from large national local companies to smaller regional players. Cake, Rusk and bread Overall Bakery, despite the general economic sluggishness, is still growing at 12-14%, with specific segments within that, growing faster – at the top end, driven by differentiation and new tastes, experiences, and at the bottom end, through availability and affordability.

The food market itself has seen some interesting structural changes in the past few years with the emergence of a diversified palate of choices across functional and indulgent products. Additionally, with greater affluence and exposure, consumers are increasingly migrating from unbranded commodities, sold loose, to branded and packaged solutions that are hygienic and convenient. The Company, therefore expects the overall Bakery market to grow 13-15% in the coming year.

b. Business Strategy:

Your Company's strategy is based on inspirational growth, in the context of the opportunities and challenges that the Indian market presents – an increasing consumer appetite to continually upgrade, irrespective of price points, demanding value for money propositions at all times and a more intense and vibrant competitive scenario.

The focus continues to be on profitable growth, driven through innovation and operational excellence right through the value chain. Revenue and cost management form an intrinsic part of operational excellence and will continue to be monitored closely for improvement. The role of innovation in your Company is about creating new sources of value. These include completely new or renovated products and packs that create greater consumer delight or the application of new technology that reduces cost and increases quality delivery, or a process innovation that reduces time to completion and increases efficiency. This comprehensive view of innovation enables your Company to experiment and pilot new initiatives and scale those that are successful. An in-depth understanding of consumers and what excites and motivates them forms the backbone of all our actions – from product design and benefit propositions, to their delivery. Building, improving and maintaining consumer preference and purchase form the basis of your Company's business and long-term success.

c. Segment wise Performance:

The Company's primary business is bakery and confectionery. The food related products of the Company incorporate product group's viz. Bakery and Bread which have similar risks and returns and are in one segment only.

d. Recent Trend and Future Outlook:

As discussed previously, the domestic market for packaged, branded bakery product is expected to grow 13-15% in the near term. The challenge to profitable growth comes from the trend in commodity prices, the general economic sentiment and a macro environment that contributes to operational stability in the manufacturing units and markets. Simultaneously, the Indian market opportunity and food market growth will attract new local and international players with deep pockets and a differentiated capability in their domains of operation to enter and expand operations in India. Creating a leadership position in this environment will demand that your Company's brands and their propositions are relevant and exciting for consumers and differentiated enough to create a higher preference and purchase. Your Company's focus is on differentiating its products and continually renovating and innovating them to create unique and superior experiences for its consumers and customers. This, combined with effective cost management will generate profitable growth.

e. Risks and Concerns:

The major risks and areas of concern stream from the aspiration to drive high double digit growth in an environment of economic sluggishness in India, coupled with the volatility of commodity prices and policies. Additionally, greater competitive intensity in this context could drive up the cost of doing business

**f. Internal Control Systems and their Adequacy:**

Your Company believes in formulating adequate and effective internal control system and implementing the same strictly to ensure that assets and interests of the Company are safeguarded and reliability of accounting data and accuracy are ensured with proper checks and balances. The Internal control system is improved and modified continuously to meet the changes in the business conditions, statutory and accounting requirements. The Company's internal audit function is responsible for assessing and improving the effectiveness of risk management, control and governance process. The management of the Company duly considered and takes appropriate action on the recommendations made by statutory auditors and Independent Audit Committee of the Board of Directors.

g. Financial Performance with respect to operational performance:

The Financial performance of the Company for the year 2012-13 is described in the Directors' Report under the head operations.

h. Material Developments in Human Resources and Industrial Relations Front:

Your Company is committed to driving an effective and transparent Performance Culture and mindset wherein people take higher ownership and accountability for their own performance and contribute positively and collaboratively to your Company's Business Goals. The same is facilitated through a structured goal alignment and cascading process that links Company goals with individual and functional goals. Your Company has also rolled out functional competency frameworks that measure not just results but "how results are achieved" through the introduction of 'Core Values & Leadership behavior'

I. Cautionary Statement:

Statement in this Management Discussion and Analysis Report, Describing the Company's objectives, estimates and expectations may constitute Forward Looking Statements within the meaning of applicable laws or regulations. Actual results might differ materially from those either expressed or implied.
